Falcon Tech — Remote Work Policy

1. Purpose

This policy explains how employees of Falcon Tech, a fictional software company, may work outside the office. It applies to all full-time and part-time employees after they complete their probation period of three months. Contractors follow the terms of their own contracts.

2. Eligibility

Employees may work remotely up to three days per week. Team leads may approve a fourth remote day for special cases, such as a medical need or a long-distance family situation. New hires must work fully from the office during the first month to complete onboarding and meet their team in person.

3. Core Hours

All remote employees must be available online between 10:00 AM and 3:00 PM local time, Sunday to Thursday. Outside core hours, employees may organize their schedule freely as long as they complete eight working hours per day. Meetings should be scheduled within core hours whenever possible.

Equipment and Security

4. Equipment Allowance

Falcon Tech provides each remote employee with a laptop, a headset, and a one-time home office allowance of 1,500 SAR. The allowance can be used for a desk, a chair, or a monitor. Receipts must be submitted to the finance team within 30 days of purchase. Internet costs are reimbursed up to 200 SAR per month.

5. Information Security

Employees must connect through the company VPN when accessing internal systems. Public Wi-Fi networks, such as those in cafes or airports, may only be used together with the VPN. Laptops must be locked when unattended, and multi-factor authentication is mandatory for email, source code, and HR systems.

6. Data Handling

Customer data must never be stored on personal devices or personal cloud accounts. Printed documents containing confidential information must be shredded. Any suspected data leak must be reported to security@falcontech.example within one hour of discovery.

Communication and Review

7. Communication

Teams use Slack for daily communication and Microsoft Teams for client meetings. Employees should respond to direct messages within two hours during core hours. Each team holds a 15-minute daily stand-up at 10:30 AM. Cameras are expected to be on during stand-ups and one-to-one meetings.

8. Performance

Remote work is measured by results, not by online presence. Managers hold a one-to-one meeting with each team member every two weeks. If performance drops for two consecutive quarters, the manager may reduce remote days to one per week for a three-month improvement period.

9. Policy Review

The HR department reviews this policy every twelve months. The current version is 2.1, effective from 1 January 2026. Questions about this policy should be sent to hr@falcontech.example.
